

MTM (Metal to Metal Seal Wellhead)

The metal to metal seal wellhead consists of SBM seal rings, RCM seal rings and XEM seal rings which can stand extremely high pressure and temperature.

The metal seals are simultaneously pressure-energized and can be retrieved when pulled from mating bowl

PRODUCT RANGE

- Pressure: 2000psi~ 20000psi
- Material : AA ~ HH
- Temperature: -75oF ~ 250oF
- PSL: PSL 1-4
- PR: PR1, PR2
